## FUN FACTS

In New Zealand's indigenous Māori language, Auckland is called Tāmaki Makaurau which means a '**place desired by many**'.

Auckland's landscape is dotted with **53 volcanic cones**. The largest, youngest and most iconic is Rangitoto Island, which emerged from the water approximately 650 years ago.

Auckland is home to about **1.7 million people** – more than a third of New Zealand's population.

One of the few cities in the world bordered by **three harbours on two separate bodies of water** – The Pacific Ocean on the east coast and the Tasman Sea on the west coast.

Westhaven Marina, on the city's doorstep, is the **largest marina in the Southern Hemisphere**.

The Hauraki Gulf Marine Park encompasses an incredible area of **1.2 million hectares and more than 50 islands**. Many islands are easily accessible by ferry from downtown Auckland, including Waiheke Island, Rangitoto Island and Tiritiri Matangi Island.

Auckland is fortunate to enjoy one of the most diverse and unique music scenes in the world – so much so, that it's officially a '**UNESCO City Of Music**'.

Auckland comprises **69% water and 31% land** mass, making it a desired region in New Zealand with a stunning blend of urban life and natural marine beauty.
